

CORE BORE

MACH III CORE BORE™ BITS

FAST CORING. MAXIMUM PERFORMANCE.

Core drill at **MACH III** speeds and leave the competitors in the dust! These **CORE BORE™** bits soar like a jet through concrete and hard aggregate!

FAST CORING

M-segments allow less surface-to-surface contact, delivering fast, smooth drilling

LONG LIFE

High quality diamond maximizes diamond wear for extended life

HARD CONCRETE

Engineered to perform in general concrete and hard aggregate

SMOOTH, CLEAN HOLES

Consistent performance for professional-quality results

LOWER COST PER HOLE

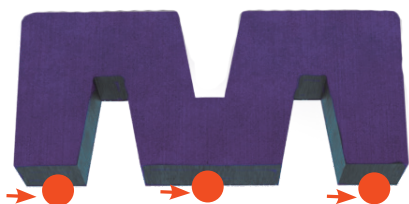

More holes per bit means less downtime and lower cost

14"
CORE
LENGTH

**BOND
SPEC:
MOL3**

For use on mounted core rigs (all models) and hand-held motors (3" and under)

**M-Segment With Three
Surface Points For
MACH III Speed
And Performance**

SIZE	MOL3 Cat #
2"	108130
2-1/2"	108617
3"	107881
3-1/2"	108619
4"	107932
4-1/2"	108621
5"	107880
6"	107933
7"	108517
8"	108131
10"	108518
12"	108622

Ordering Information:

Other sizes available.
Consult the factory.

MACH III core bits standard
core length = 14".

1-1/4"-7 threaded hub standard.

All diameters are nominal.
Exact tolerances upon request.
