# WS50-LE HIGH-CYCLE WIRE SAW

## Features/Benefits:

- Twin 25hp high-cycle compact electric motors: reduces weight and size vs. traditional electric motors
- Twin pneumatic cylinder take up: simple automatic take up and constant tensioning completely adjustable by operator
- 86' (26m) total wire take up and storage Large capacity storage for larger cuts and less down time repositioning saw
- Twin 16.50" diameter poly-coated drive wheels: Increases friction on cutting wire
- Load adapter drive wheel to motor connection : Reduces load on motor to prolong motor life
- Low entry pull side: Reduces danger of broken cutting wire
- Low friction, easily positionable wire guide pulley
- Fully positionable wire guide pulleys
- Multiple positioning/moving options: Load rated lifting rings, integrated for pockets, low resistance free rolling caster
- Interior water spray system : Allows operator to choose to spray water directly on idler wheels and cool cutting wire.

## Specifications:

Length:	86.00"
Width:	32.00"
Height:	52.00"
Weight:	Saw-1100lbs, Power Panel 200lbs>
Part #	5801622
Cat #	86582

- **Model Group:** No
- **Model Number:** No
- **Catalog Number:** 08922
- **Part Number:** 5801600
- **Engine/Motor Make:** No
- **Engine/Motor Model:** No
