DIAMOND PRODUCTS
QUALITY IS CHOICE

COMMANDER
PRO CORE BORE BITS

LONG LIFE. SMOOTH CORING. MAXIMUM PRODUCTIVITY.

Very high quality diamond with V-shaped segments for the fastest coring right out of the box in reinforced hard aggregate.

FAST CORING
V-segments allow less surface-to-surface contact, delivering fast, smooth drilling

LONG LIFE
High quality diamond maximizes diamond wear for extended life

REINFORCED CONCRETE
Engineered to perform in reinforced, hard aggregate concrete

SMOOTH, CLEAN HOLES
Consistent performance for professional-quality results

LOWER COST PER HOLE
More holes per bit means less downtime and lower cost

Profile View of Commander Segment

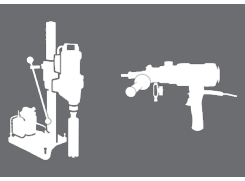

13" CORE LENGTH

BOND SPEC: CMD

For use on mounted core rigs (all models) and hand-held motors (3" and under)

SIZE	CMD Cat #	SIZE	CMD Cat #
2"	71197	8"	77274

Ordering Information:
Other sizes available.
Consult the factory.

Up to 14" diameter core bits standard core length = 13". Diameters above 14" core length = 2" above diameter.

1-1/4"-7 threaded hub standard.

All diameters are nominal.
Exact tolerances upon request.
